DEPARTMENT OF AGRICULTURE, BENGAL

Calcutta, the 25th April 1945.

Forecast of the Rabi Crops of Bengal for 1944-45.

(*Note.*—On an average of the five years ending 1942-43, the area under summer rice in Bengal has represented some 0·6 per cent. of the total area under rice in India.)

Character of the season.—Sowings generally commenced on normal dates but poor rainfall in the beginning of the growing season retarded growth in most districts. Subsequently the weather condition improved. In certain districts some damage was caused by drought and insect-pests.

Acreage.—The total area sown with different *rabi* (1) food crops and (2) non-food crops dealt with in this forecast is estimated at (1) 3,449,500 and (2) 698,900 acres this year as against (1) 3,408,700 and (2) 706,900 acres respectively last year and against the total estimated normal areas of (1) 3,033,300 and (2) 708,300 acres.

The total food crops acreage this year shows an increase by about 1·2 per cent. as compared with that of last year and the increase under summer rice is about 4·3 per cent. The area under summer rice is estimated to be 540,100 acres this year as against 517,800 acres last year. The area under tobacco is estimated at 299,900 acres this year as against 300,200 acres last year.

Outturn.—According to District Officers' estimates the average outturn of the different *rabi* crops works out to 78 per cent. of the normal this year as against 82 per cent last year.

Summer rice and tobacco crops.—The average outturn of summer rice (*boro*) for the province works out to 87 per cent. of the normal as against 94 per cent last year. The gross yield of the crop on the basis of the normal yield of 13 3/5ths maunds of clean rice per acre is estimated at 234,800 tons this year, as against 243,100 tons last year.

The outturn of tobacco works out to 78 per cent. of the normal as in last year. Taking 1,151 lbs. or 14 maunds as the normal yield of tobacco per acre, the gross yield of the crop for the province works out to 120,300 tons this year as against 120,400 tons last year.

ORDER

No. 516L.S.-G., dated 25th/27th April 1945.

Supersession of the Balia union board in police-station Khargram in the Kandi subdivision of the Murshidabad district, under section 56(1)(b) of the Bengal Village Self-Government Act, 1919.

Whereas I am of opinion, after considering the views of the District Magistrate and the district board, that the union board described above persistently makes default in the performance of the duties imposed upon it under the Bengal Village Self-Government Act, 1919, for the reason that the chowkidars have not been paid for sixteen months up to March 1945, and the clerk of the Board has not been paid for three years, now therefore in exercise of my powers under section 56(*1*)(*b*) of the Bengal Village Self-Government Act, acting with the approval of the Provincial Government, I supersede the Balia union board for a period of one year with effect from 15th May 1945.

I further direct under section 57(*1*)(*b*) and (*c*) of the Bengal Village Self-Government Act, that during the period of supersession all powers and duties of the said union board shall be exercised by the Circle Officer who for the time being is in charge of the Circle in which the union board is situated, and that all property vested in the union board shall during that period vest in the said Circle Officer in the same manner and to the same extent as it vested in the union board before supersession.

If no return is submitted within the period specified in section 4, the Circle Officer, or, if the sum assessed exceeds two hundred rupees, the Assistant Collector, may make a summary assessment of the duty on such information as may be available to him.

(*2*) The amount so assessed shall be communicated in writing to the person owning or possessing the sugar with the particulars contained in Form B set out in the Schedule; and that person shall, not later than the 11th day of November, 1944, unless he obtains permission under sub-section (*3*) to pay by instalments, pay it into the local Treasury or any other Treasury approved by the Assessing Officer.

(*3*) Such payment may, with the permission of the Assessing Officer obtained when the assessment is communicated under sub-section (*2*), be made in instalments not more than three in number, of which, when three instalments are allowed, the first shall be not less than one-third of the total amount due and shall be paid not later than the 11th day of November, 1944, and the second shall be not less than one-half the balance due and shall be paid not later than the 26th day of December, 1944, and the third shall be paid not later than the 11th day of February, 1945, and, when two instalments are allowed, the first shall be not less than half the total amount due and shall be paid not later than the 11th day of November, 1944, and the second shall be paid not later than the 26th day of December, 1944.

6. Recovery of duty with penalty.—If the duty payable under section 3 is not paid in full before the 12th day of February, 1945, or if any instalment is not paid in full by the date fixed by section 5, the Circle Officer, or, if the deficit exceeds one hundred rupees, the Assistant Collector may, in lieu of the amount left unpaid, recover any sum not exceeding double the amount left unpaid.

7. Mode of recovery of duty.—When default is made in the payment of any duty payable under section 3, or when any sum is to be recovered under section 6, the Assistant Collector may prepare a certificate signed by him specifying the amount due from the person liable to pay the same and send it to the Collector of the district in which such person resides or conducts his business and the said Collector, on receipt of such certificate, shall proceed to recover from the said person the amount specified therein as if it were an arrear of land revenue.

8. Power to obtain information.—An Assessing Officer or any person authorised in writing in this behalf by an Assistant Collector may at all reasonable times enter any place in which he has reason to believe that sugar liable to the duty imposed by section 3 is kept, and may inspect such place and may require any person found therein who is for the time being in charge thereof to produce to him and allow him to examine such accounts, books or other documents as may relate to the business carried on in such place and to furnish to him such information as he may require for the purpose of ascertaining whether or what sugar liable to duty is kept in such place or is elsewhere in the ownership or possession of the owner of such place.

9. Disposal of sugar liable to duty.—No person owning or possessing sugar liable to the duty imposed by section 3 shall sell or otherwise dispose of any sugar until the order of assessment under section 5 has been communicated to him and until he holds a release order signed by the officer making the assessment:

Provided that nothing in this section shall apply to sugar sold retail in quantities not exceeding two pounds to one person at one time.

10. Offences and penalties.—Whoever commits any of the following offences, namely:—

(*b*) evades the payment of any duty payable by him under this Ordinance;

(*c*) obstructs any Assessing Officer or other authorised person in the exercise of his powers under section 8;

(*d*) contravenes the provisions of section 9;

(*e*) attempts to commit, or abets the commission of any of the offences mentioned in the foregoing clauses of this section,

shall, for every such offence, be punishable with imprisonment for a term which may extend to one year, or with fine, or with both, and where the offence is committed, attempted or abetted in respect of sugar liable to duty under section 3 such fine may extend to five times the duty leviable on the sugar in respect of which the offence is committed, attempted or abetted.

11. Power of Courts to order forfeiture.—Any Court trying an offence under this Ordinance may order the forfeiture to His Majesty of any sugar in respect of which the Court is satisfied that an offence under this Ordinance has been committed, and may also order the forfeiture of any receptacles, packages or coverings in which such sugar is contained and the animals, vehicles, vessels or other conveyances used in carrying the sugar:

Provided that in ordering forfeiture under this section, the Court shall give the owner of the goods an option to pay in lieu of forfeiture such fine as the Court thinks fit.

12. Appeals.—(*1*) Any person aggrieved by any decision or order passed under section 5 or section 6 may, within one month from the date of such decision or order, appeal therefrom to the Collector of Central Excises and Salt Revenue having jurisdiction in the area; but the filing of such an appeal shall not, pending the appeal, absolve him from the obligation to pay the sum or sums specified in such decision or order.

(*2*) The Collector of Central Excises and Salt Revenue may thereupon make such further inquiry and pass such order as he thinks fit, confirming, altering or annulling the decision or order appealed against; and if the money deposited by the person making the appeal exceeds the amount directed by the Collector of Central Excises and Salt Revenue to be paid, the money deposited in excess of such amount shall be refunded.

(*3*) Every order passed in appeal under this section shall, subject to the power of revision conferred by section 13, be final.

13. Revision by the Central Board of Revenue.—The Central Board of Revenue may, on the application of any aggrieved person, reverse or modify any decision or order made under section 5, 6, or 12.

14. Rebate on export.—The Central Government may, by notification in the official Gazette, make rules to provide for the grant of a rebate of the duty paid under this Ordinance on sugar which is afterwards exported to any country outside India.

15. Bar of legal proceedings.—No suit, prosecution or other legal proceeding shall lie against any person for anything done or in good faith intended to be done under this Ordinance.

16. Saving of other laws.—The provisions of this Ordinance shall be in addition to and not in derogation of any other law for the time being in force in relation to the levy of central duties of excise on sugar.

Part IV.

Chapter X—The consolidated rate—Annual value of land or building belonging to the Calcutta Improvement Trust.

128. For the purpose of assessing land and buildings belonging to the Board of Trustees for the Improvement of Calcutta to the consolidated rate, the annual value of such land or building acquired by purchase or otherwise by the Board for the execution of an improvement scheme for the purposes of the Calcutta Improvement Act, 1911, which has been framed **after the 24th day of April 1939,** shall be deemed to be five per cent. on the cost of acquisition thereof, subject, on application made in this behalf by the Board, to revision by

the Provincial Government and such annual value shall be fixed from the date of the acquisition in each succeeding quarter on the basis of such cost, and shall, notwithstanding anything contained in section 131, remain in force until the streets (if any) laid out or altered and the open spaces (if any) provided in executing the scheme have vested in the Commissioners under section 65 of the said Act.

Explanation.—For the purposes of this section the cost of acquisition means—

(*a*) in the case of land and buildings acquired under the Land Acquisition Act, 1894, as amended by the Calcutta Improvement Act, 1911, the value of the land and buildings as determined by the Land Acquisition Collector or by the Tribunal under the Calcutta Improvement Act, 1911, or by any other higher appellate authority;

(*d*) in any other case, including the erection of any new structures subsequent to the acquisition, such valuation as may be determined by the **Chairman.**

No remission for vacancy in the case of land or building belonging to the Board.

129. Notwithstanding anything contained in sections 151 to 156, and subject to the provisions of section 128, when any land or building belonging to the Board is valued under section 128, no remission or refund of the consolidated rate assessed in respect of such land or building shall be allowed on the ground that it is unoccupied, but both the owner's and the occupier's share of the consolidated rate shall be payable in full as long as such land or building belongs to the Board and is assessed under section 128.

Revaluation of land or building vested in the Board after execution of an improvement scheme.

130. When the Board has executed any scheme referred to in section 128, and the streets (if any) laid out or altered and the open spaces (if any) provided in executing such scheme have vested in the **Commissioners** under section 65 of the Calcutta Improvement Act, 1911, the valuation made under section 128 shall terminate, and any land or building acquired by purchase or otherwise by the Board for the execution of such scheme and remaining vested in the Board at the termination of such valuation shall be re-valued under section 127, and such re-valuation shall remain in force for such period as remains unexpired in the ward in which it is included.

Assessment of annual value and duration of assessment.

131. * * * *

(*2*) Notwithstanding anything contained in sub-section (*1*), the following conditions shall apply in the several cases hereinafter specified, namely—

* * * * *

Acquisition by the Calcutta Improvement Trust.

(*g*) if, during the currency of any period mentioned in sub-section (*1*), the ownership of any portion of any building or land be acquired by purchase or otherwise by the Board of Trustees for the Improvement of Calcutta, the **Chairman** shall, on the application of the Board, divide the assessment of such building or land in the following manner, namely:—

(*a*) the **Chairman** shall determine what proportion of the assessment of such building or land shall remain assessed upon the residue of the building or land not so acquired, and such proportion shall from the date of acquisition until the expiration of the aforementioned period be deemed to be assessment of such residue of the building or land;

(*b*) the valuation of the portion of the building or land acquired by the Board shall be fixed in the manner hereinbefore prescribed in section 128, and until such valuation comes into force the Board shall be held liable for the consolidated rate due for such portion, and the amount due shall be deemed to be the amount of rates paid on the whole building or land prior to acquisition, less the amount for which the residual owner is made liable under sub-clause (*a*) of this clause;

Transfer by the Calcutta Improvement Trust.

(*h*) if, during the currency of any valuation mentioned in section 128 or section 130, any building or land, or portion thereof, vested in the Board be sold or otherwise transferred by the Board, except under section 65 of the Calcutta Improvement Act, 1911, the **Chairman** may cause the same to be re-valued under section 127, and such re-valuation shall be in force, and the consolidated rate shall be levied according to it, with effect from the quarter following the date of sale or transfer, until the expiration of the period mentioned in sub-section (*1*);

Acquisition by the Calcutta Improvement Trust for the execution of an improvement scheme.

(*i*) if any re-valuation be made under clause (*h*), the Board shall be entitled to a reduction in the total assessment fixed upon the buildings and lands acquired by it for the execution of an improvement scheme for the purposes of the Calcutta Improvement Act, 1911, to the extent of one-half of the annual valuation of the land or building, or portion thereof, thus transferred by the Board, from the quarter from which such re-valuation is fixed under section 127.

NOTICE.

WITH reference to the Bengal Civil Service (Judicial) Recruitment Rules, 1941, it is hereby notified that 6 appointments to the Service will be made during the current year. In view of appointments already made and in accordance with the Bengal Communal Ratio Rules, 3 of the appointments will be reserved for Muslims and 3 for non-Muslims, provided that suitable candidates from these communities are available.

2. As the quota fixed for Assam has already been filled, there will be no recruitment of any candidate from Assam to any of these 6 posts.

3. A candidate should be under 27 years of age on the 1st January 1945 and also be either a graduate in Law of some statutory university or a Barrister or a member of the Faculty of Advocates in Scotland or an Advocate or an Attorney on the rolls of the High Court in Calcutta.

4. Persons who may wish to apply should submit their applications in the prescribed form, copies of which and of the Bengal Civil Service (Judicial) Recruitment Rules, 1941, may be obtained from the Secretary, Public Service Commission, Bengal, Secretariat Building, Darjeeling, personally or **on sending an addressed envelope with a nine pies stamp.** The applications must not be addressed to the Secretary by name and should reach him, complete with necessary certificates, treasury chalan (for Rs. 10), etc., not later than the 15th June 1945.

5. A number of candidates considered prima facie suitable will be called upon to appear before a Medical Board for a declaration of their fitness for Government Service in Form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not, however, be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. Intending candidates are advised before they apply for recruitment to the Service to satisfy themselves that they are likely to qualify as physically fit, for experience has shown that a considerable number of the candidates are rejected by the Medical Board as unfit.

6. The Commission will only acknowledge receipt of an application or reply to an enquiry about an application if a stamped envelope accompanies the enquiry or request for acknowledgment. The Commission are unable to give any indication of what has been their recommendation to Government in respect of an application received by them.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such step as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

(*2*) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

He shall not direct the patient to be removed from the house unless it is in his opinion impossible to make proper arrangements for his isolation therein.

12. The District Health Officer or a Sanitary Inspector or a rural medical officer may order that any person, who has in his opinion been exposed to infection from cholera, shall take such drugs in such quantities as may be specified by the District Health Officer, Sanitary Inspector or rural medical officer or shall submit himself to anti-cholera inoculation within a time to be specified in the order.

(2) If the owner of any mill fails to furnish in due time the return referred to in sub-section (1) of section 10 or furnishes a return which the Collector has reason to believe is incorrect or defective, the Collector shall assess the amount, if any, payable by him in such manner as may be prescribed, and the provisions of sub-section (1) shall thereupon apply as if such assessment had been made on the basis of a return furnished by the owner:

Provided that, in the case of a return which he has reason to believe is incorrect or defective, the Collector shall not assess the duty at an amount higher than that at which it is assessable on the basis of the return without giving to the owner a reasonable opportunity of proving the correctness and completeness of the return.

(3) A notice under sub-section (1) may be served on the owner of a mill either by post or by delivering it or tendering it to the owner or his agent at the mill.

12. Finality of assessment and recovery of unpaid duty.—(1) An assessment made in accordance with the provisions of section 11 shall not be questioned in any Court.

(3) Where any officer other than the Collector proposes to examine under sub-section (2) any record or account containing the description or formulae of any trade process, the owner of the mill may give to the said officer, for transmission to the Collector, a written notice of objection and the officer shall thereupon seal up the record or account pending the orders of the Collector.

14. Information acquired to be confidential.—(1) All such copies and extracts and all information acquired by a Collector or any other officer from an inspection of any mill or warehouse or from any return submitted under this Act shall be treated as confidential.

(2) If the Collector or any such officer discloses to any person other than a superior officer any such information as aforesaid without the previous sanction of the Central Government, he shall be punishable with imprisonment which may extend to six months and shall also be liable to fine:

19. Publication of rules and regulations.—All rules made under section 17 and all regulations made under section 18 shall be published in the Gazette of India.

STATEMENT OF OBJECTS AND REASONS.

India is one of the world's principal producers of oilseeds. In view of the importance of oilseeds in the national economy, it is considered necessary to put oilseeds research, development and technology on a more permanent basis than it is at present. Accordingly it is proposed to set up an Indian Central Oilseeds Committee on the lines of other similar commodity committees such as the Indian Central Cotton Committee, the Indian Lac Cess Committee. The Committee which will have on it representatives of all the important interests concerned, will devote exclusive attention to all problems connected with the improvement and development of the cultivation and marketing of oilseeds, the production and marketing of their products and all matters incidental thereto. Since it is desirable that the Committee should have an independent source of income, it is proposed that as in the case of other similar Committees, funds should be provided by the levy of an excise duty at the rate of one anna per maund of oilseeds crushed in power-operated mills in British India.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 26th March 1945:—

L. A. BILL No. 10 OF 1945.

A Bill further to amend the Indian Army Act, 1911.

WHEREAS it is expedient further to amend the Indian Army Act, 1911 (VIII of 1911), for the purposes hereinafter appearing;

It is hereby enacted as follows:—

1. Short title.—This Act may be called the Indian Army (Amendment) Act, 1945.

2. Amendment of section 114, Act VIII of 1911.—In section 114 of the Indian Army Act, 1911,—

(a) after rule (6), the following rules shall be inserted, namely:—

"(7) Where the deceased person or deserter is an Indian commissioned officer on active service, the references in the foregoing rules to the commanding officer shall be construed as references to the Standing Committee of Adjustment, if any, appointed in this behalf; and the power conferred by rule (2) to require payment of a deposit left in a Government savings bank shall be read as a power to require the payment from any deposit left in any bank, notwithstanding anything in the

*The Governor General has been pleased to give the previous sanction required by section 108 (1) (c) read with section 313 (4) (a) of the Government of India Act, 1935, to the introduction in the Legislative Assembly of this Bill.

rules of the bank, of a sum, not exceeding two thousand five hundred rupees, equal to the nearest multiple of one hundred rupees above the amount estimated by the Standing Committee of Adjustment as necessary to meet the regimental and other debts in camp or quarters of the deceased.

(8) The decision of the commanding officer or the Standing Committee of Adjustment, as the case may be, as to what are the regimental and other debts in camp or quarters of a deceased person and as to the amount payable therefor shall be final.";

(b) the existing *Explanation* shall be numbered *Explanation* 1 and the following *Explanation* shall be added, namely:—

"*Explanation* 2.—The expression 'regimental and other debts in camp or quarters' includes for the purposes of this section money due as—

(1) expenses of last illness;

(2) military debts, namely, sums due in respect of, or of any advance in respect of—

(a) quarters,

(b) mess, band, and other regimental accounts,

(c) military clothing, appointments and equipments, not exceeding a sum equal to six months' pay of the deceased, and having become due within eighteen months before his death."

STATEMENT OF OBJECTS AND REASONS.

The object of the amending Bill is to ensure the speedy disposal of the moveable property in camp or quarters of Indian Commissioned Officers dying or deserting while on active service. Under the procedure now in force the disposal of such property devolves upon the Commanding Officer. His duty is to secure all the moveable property that is in camp or quarters and to realise any pay and allowances due; he may also, if he thinks fit, realise a deposit not exceeding one thousand rupees which has been left in a Government Savings Bank. If a representative of the deceased officer gives security for the payment of the regimental and other debts in camp or quarters, the Commanding Officer delivers all the moveable property received by him to that representative. Otherwise the Commanding Officer sells the moveable property and pays these debts, handing over the surplus, if any, to the representative of the deceased officer. In conditions as they exist at present the Commanding Officer is normally engaged with operational commitments and his unit is often on the move. He is therefore unable to devote adequate time and attention to the disposal of property. In order to avoid unnecessary delays it is proposed to relieve him of this duty and to set up an expert body, a Standing Committee of Adjustment.

2. Provision is also made for the withdrawal by the Standing Committee of the deposit left in a bank by the deceased officer up to Rs. 2,500. The existing limit of Rs. 1,000 has been found in several cases to be insufficient to cover the debts left by the deceased officer.

3. Opportunity has also been taken to define the expression "Regimental and other debts in camp or quarters".

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor General in Council, be limited to such number as the Governor General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit the Federal Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applications for employment as a commissioned officer in the Royal Indian Navy.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Federal Public Service Commission.

STATEMENT OF OBJECTS AND REASONS.

There is a large number of historical Sikh Gurdwaras which are most sacred to the Sikhs throughout the world and to some of these there is sufficient immoveable property. There is now widespread dissatisfaction with the management of Gurdwaras all over the Province and the Punjab. Legislation is taking place in each part of India to bring under proper control the income and properties of Religious Endowments with a view to expend the money to the best interests of the community to whom the same belong. In Delhi too, legislation has taken place with regard to the Muslim Wakf properties. Having considered all the materials and the pressure put upon by the public from time to time, it is considered desirable to introduce this Bill which if passed into law will meet the wishes of the public as it will ensure proper superintendence, maintenance, control and administration of the Endowments.

STATEMENT OF OBJECTS AND REASONS.

The Bill is intended to prohibit the employment of women below ground in mines when in an advanced stage of pregnancy and to grant maternity benefit to those women workers who are so prohibited.

In 1943 a great shortage of labour for employment in coal mines became noticeable, and coal raisings were seriously affected to the serious detriment of the war effort of the country. It therefore became necessary temporarily to remove the ban on the employment of women below ground in coal mines in the major coal areas. The measure is of a purely emergent and temporary nature and the ban will be reimposed as soon as conditions permit. Employers are already prohibited from employing in mines women for 4 weeks after delivery and women are entitled to benefit for 4 weeks before and after delivery. The removal of the ban on the employment of women below ground makes it necessary to extend the period of prohibition in the case of women working underground and to arrange for payment of benefit over a longer period. The Bill therefore proposes to prohibit the employment of women below ground for a period of 10 weeks before

confinement as an addition to the present prohibition of employment for four weeks after confinement and to make the woman eligible for benefit for a period of ten weeks before expected date of confinement. It is also considered necessary to have powers to vest any specified official with the powers at present exercised by the Chief Inspector of Mines and the Inspectors of Mines only under the Mines Maternity Benefit Act, 1941. The Bill is intended to provide for this also.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 12th April 1945.—

L. A. BILL NO 17 OF 1945

A Bill to provide for the protection of technical personnel in industries

WHEREAS it is expedient to provide for the protection of technical personnel in industries;

It is hereby enacted as follows:—

1. Short title and extent.—(1) This Act may be called the Technical Personnel Protection Act, 194

(2) It extends to the whole of British India.

2. Definition.—For the purpose of this Act—

"Technical personnel in industries" shall mean persons employed in all industrial concerns by virtue of their technical training or scientific education or both, such as, chemists, physicists, metallurgists, engineers and others of similar education and training

3. Power to make rules and regulations and to prescribe punishment for infringement thereof. The Government of India shall provide for the protection of the technical personnel in industries by making rules and regulations in all matters affecting the interests of such personnel, including, cadres of pay with bonuses, etc., and other conditions of service including security and hairy of its tenure as well as recognition, appreciation and encouragement of invention, originality and initiative; and by enforcing such rules and regulations by making their infringement legally punishable.

STATEMENT OF OBJECTS AND REASONS.

This measure is intended to put our industrial progress on a stable basis and to make such progress not only steady and continuous but more indigenous and popular. The technical personnel in industries, which consists of chemists, physicists, metallurgists, engineers and such others, is not less in importance than capital and raw materials. It is moreover different from ordinary skilled or unskilled labour. In the majority of our industrial concerns in India this technical personnel is uncared for, if not unfairly treated. Indian industries thrive in protection. The comparative inefficiency of our Indian industries is mainly due to the lack of initiative on the part of our technical men and experts for proper endeavour and research for improvements and inventions. If the genius skill and knowledge of technical and scientific men are not carefully nursed and properly utilised by providing for them requisite scope and conditions of service, it is rightly apprehended that our industries will never be able to stand on their own legs in open competition in the world and look for protection even after the war and that for an indefinite period.

Calcutta, the 23rd May 1945.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1944-45.

(*Note*: On an average of the five years ending 1942-43, the area under linseed in Bengal has represented some 4 per cent. and that of rape and mustard some 12·4 per cent. of the total area under these crops in India.)

Character of the season.—Since the submission of the second forecast in March last, the weather and its effect on the crops have not been generally favourable. Some damage has been caused to the crops due to drought at the early stages and irregular distribution of rainfall, insect-pests and fungus diseases at the time of maturing at places.

Area sown.—Spring oilseeds are chiefly grown in Dacca, Rajshahi and Presidency Divisions. In the other two divisions the cultivation of the same is not so extensive. The total area under these crops (excepting sesamum for which separate forecast are issued) is returned at 1,018,100 acres as against 1,018,800 acres last year.

Outturn.—From the District Officers' estimates, the provincial outturn of the different oilseed crops works out to 69 per cent. of the normal as against 73 per cent. last year.

Taking 6½ maunds as the normal yield per acre for linseed, 6-3/5 maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 166,900 tons as against 176,500 tons last year.

DEPARTMENT OF AGRICULTURE, BENGAL

Calcutta, the 24th January 1945.

First Forecast of the Wheat Crop of Bengal, 1944-45.

(*Note.*—On an average of the five years ending 1942-43, the area under wheat in Bengal has represented some 0·5 per cent of the total area under wheat in India. The ratio of irrigated wheat acreage to the total wheat acreage (*a*) in British India and (*b*) in Bengal has, in the five years ending 1942-43, averaged (*a*) 47·9 per cent. and (*b*) 7·2 per cent. respectively)

Explanatory.—Four forecasts of the wheat crop are published. The present forecast deals only with the estimated area sown and the general conditions of the crop in the early stages.

Acreage.—According to the estimates of the District Officers the total area sown is 170,700 acres this year as against 178,500 and 192,200 acres respectively in the corresponding and the final forecasts of last year.

Character of the season.—Sowings generally commenced in normal time. Unfavourable weather conditions in the shape of drought adversely affected the growth of the crop in its early stage. The present outlook is reported to be fair.

GOVERNMENT OF BENGAL.

Public Health.

RESOLUTION—No. 1548P.H.

Calcutta, the 28th May 1945.

Read the reports of the Chief Engineer, Public Health and of the Sanitary Board, Bengal, for the year 1943. The Engineering Branch of the Public Health Department maintained its usual standard of efficient administration and extended its activities in many directions.

Besides the permanent executive staff of one Chief Engineer, 3 Executive Engineers, 5 Assistant Engineers, 13 officers in the subordinate engineering service and 1 Superintendent of waterworks, the department also maintained several temporary hands both in the Provincial and Subordinate Engineering services, viz., 7 Assistant Engineers, 9 Supervisors and 5 Overseers in the year under report to cope with the work.

The total capital expenditure on waterworks and sewerage works in the province, during the year under review amounted to Rs. 2,02,338 and Rs. 29,913 respectively against Rs. 3,85,029 and Rs. 56,678 in the previous year.

The total estimated cost of the schemes prepared by the Engineering Branch during the year was Rs. 14,33,203 as detailed below compared to Rs. 22,40,269 during the previous year:—

		Rs.
(1) Sketch Projects—		
(*a*) Water-supply	... ..	3,72,141
(*b*) Drainage and Sewerage		1,57,472
(2) Detailed Projects—		
(*a*) Water-supply	... ..	4,74,900
(3) Miscellaneous	.. .	4,28,690
	Total ...	14,33,203

Besides execution of 15 different works of Sanitary Engineering under its supervision and control, the department carried out certain other miscellaneous works at an expenditure of Rs. 18,965. The department also maintained the Kalimpong waterworks and the Maijdi water and drainage works; the latter one besides its normal supply of water to the Police lines and jail supplied water also to the Military camps at Maijdi.

The receipts of the department during the year amounted to Rs. 23,509, as against Rs. 23,834 during the previous year.

3. As in the previous year there were 52 waterworks in operation during the year under report which supplied 19,011,261 gallons of filtered water to a population of 20,24,500.

The quality of drinking water supplied from the various waterworks was satisfactory.

4. Besides the routine duties carried out by the department under the rules regulating the management of sewerage and waterworks by local bodies, the departmental officers carried out the annual inspection of the various municipal waterworks and the reports containing the recommendations and remarks of the inspecting officers were forwarded to the authorities concerned for necessary action.

5. The A. R. P. Division which was created in August 1941 was fully engaged during the year in supervising the execution of the sanctioned Civil Defence schemes many of which were completed. The Executive Engineer in charge of this division was entrusted with the work of inspection of most of the sewerage and waterworks machinery which Messrs. Volkart Brothers who previously did the work were unable to do during the year. The Division also supervised the sinking of 120 tube-wells within the municipal areas of Baranagor, Bhatpara, Halisahar and South Suburban. In addition, independent water-supply schemes for Government buildings, hospitals, jails, A. R. P. Depots, etc., were examined.
